

INSTRUCTIONAL SKILLS-2

(Course Information)

Introduction

This is a 2-week course to provide training organizations with instructional staff who have mastered the basic competencies for effective classroom instruction.

Course goals

At the end of the course, participants will be able to:

- Apply principles of learning conduct sessions effectively.
- Plan and design training session using 5-D and lesson plan format.
- Develop media for effective instruction.
- Apply different instructional methods according to the type of content (fact, concept, process, procedure and principle).
- Demonstrate professionalism and the qualities of an effective and competent instructor.
- Speak a common language used for classroom instruction.

Who will benefit

The course is appropriate for Instructional staff of training organizations. It is recommended to complete the first part of “Instructional Skills: Theory and Practical” Training prior to this part. Nevertheless, participants are allowed to participate in this part even if they have not completed the first part.

Areas covered

The following areas are specifically addressed in the course:

- Instructional foundations
- Instructional planning
- Instructional organization and management
- Instructional evaluation
- Instructional methods
- Instructional media
- Professionalism
