

Internship Program for B. Tech. Ed.

Course Code : [

Course Duration : 5 Months

Course Time : 09:00 - 17:00

Course Language : Nepali; English

The Internship is of 15 credit hours or 5 months. The internship is designed to help the students integrate classroom learning with practical work experience in technical schools, and other government or private organizations. The Internship has two parts: 90% teaching and 10% instruction related research activities. The research part is designed to ensure that the student has the opportunity to develop skills in investigation and research. Three parties are involved in the internship course: the student, on-site supervisor, and TITI Internship coordinator. The student, the supervisor and the coordinator interact to insure that the learning and the work experience goals of the internship are achieved through mutual benefit and satisfaction of all parties. The internship requires full time attendance and active participation of all the interns. However, their attendance will have to abide by the rules and regulations of the organization where they will be working as interns
